

Indonesian Team Demands Cleric Ba'asyir Moved to Open Prison

[Antonius Herujiyanto AH05_090718]

In response to the recent death of cleric Muhammad Basri while serving his jail terms at Batu maximum-security prison on Nusa Kambangan Island in Central Java, the Muslims' Lawyers Team or TPM has demanded that cleric Abu Bakar Ba'asyir be moved from the same penitentiary.

They also said that cleric Muhammad Basri had been reported passing away because of breath problems. They added that cleric Basri had never complained that he was suffering from breathing problems.

Criticising that there were not even the first aid facilities available for the prisoners suffering from illness, the Muslims' Lawyers Team made inquiries Monday (on 9 July) about moving cleric Abu Bakar Ba'asyir into an open prison or house prison in Solo.

According to them, not only is the cleric a very old man, but he also often feels ill.

Mentioning that the team has appealed for the cleric to be put in an open prison in his home town, Solo [Central Java], they said that they were still waiting for the prison management's reply to it.
